FOREWORD

In presenting this new 1942 list, I wish again to stress the fact that it contains the most dependable of the older standard varieties as well as the best of the newer ones. During recent years it has become increasingly evident that there is a growing demand for the graceful and beautiful smaller flowered gladiolus which lend themselves exceptionally well to vase and table decorations in an infinite number and variety of arrangements possible only with the small decoratives. In anticipation of this demand I have this year quite a superlative collection of these small decoratives of both American varieties and Imported English Hybrids. Again, I take this opportunity of extending a cordial invitation to you to visit my fields during the blooming season.
